

Highlights of Theoretical Chemistry Award Symposium

12 May 2009, 14.15-18:30

Postgraduate Centre, Heriot-Watt University

- 2:15 - Tea/Coffee

Chair: Prof. Maciej Gutowski, Heriot-Watt University

- 3:00 - Opening Remarks, Prof. Douglas A Greenhalgh, Head of School of Engineering & Physical Sciences, HWU
- 3:15 - Prof. Pavel Hobza, Prague, "*On the Role of London Dispersion Energy in Determining Structure and Function of Biomacromolecules: A Quantum Chemical Study*"
- 4:15 - Tea/Coffee

Chair: Dr. Martin Paterson, Heriot-Watt University

- 4:30 - Prof. Jens Nørskov, Copenhagen, "*Tailoring Surface Chemical Properties Using Electronic Structure Theory*"
- 5:30 - Prof. Mike Robb, London, S.F. Boys - A. Rahman Lectureship 2008-2009 Winner, "*How Conical Intersections Control Photostability and Photoisomerization in Biological Systems*"
- 6:30 - Wine

This event is sponsored by:
